**PRESS RELEASE**

**FOR IMMEDIATE RELEASE**

---

**MOZAEX SIGNS INVISION UK AS ITS  
EXCLUSIVE UNITED KINGDOM DISTRIBUTOR**

*MOZAEX NEW PRODUCT RELEASED AT ISE SHOW IN AMSTERDAM*

**Salt Lake City – March 7, 2010** – Mozaex™, the premiere manufacturer of multi-room, multi-media Blu-ray entertainment servers, is proud to announce that it has signed Invision UK to distribute its full line of Blu-ray Entertainment Servers throughout the United Kingdom.

Mozaex released its brand new product line at Integrated Systems Europe (ISE), that was held in Amsterdam, The Netherlands February 2 – 4 in the RAI Exhibition Centre.

“Invision is the perfect match to distribute our Blu-ray entertainment server product line,” said Mozaex CEO Douglas Kihm. “While other distributors are focused on high-volume, low-end products with low margins, Invision has proven that they know how to serve the middle to high-end custom home electronics dealer better than any other UK distributor.

“By combining Invisions exclusive UK distributorship of NetStreams® Touch Panels with our unique NetStreams® to Mozaex Touch Panel Interface we are able to offer our UK dealers added value and features that no other distributorship can.” Kihm continued.

Kihm, founder of Axonix-MediaMax, recently launched Mozaex with the goal of redefining personal multi-room, multi-media Blu-ray entertainment. Drawing from more than 26 years of experience at Axonix where he presided over the development of the company’s award-winning product lines, Kihm decided to launch a new Blu-ray server company that meets the demands of high-end home integrators for rock-solid reliability and serviceability. At Axonix, Kihm oversaw the design, delivery and installation of more than 5,000 Media Players.

Mozaex achieves its goal of “Set and Forget” reliability, in a large part, by shipping every Mozaex system with SurePlay™, an online remote system access service that allows either the dealer or Mozaex to update and maintain the system anywhere in the world. Along with its EasyUp™ single-click user software updating utility, dealers no longer need to perform time consuming and costly on-site maintenance.

“In conjunction with Invision, we will be holding classes to provide our UK dealers with in-depth training both via online SurePlay Webinars and personal on-site visits,” Kihm concluded.

*(more)*

Unlike Media Center Edition PC-based media servers, Mozaex is a dedicated, proprietary media server appliance that is designed for continuous ultra-reliable operation. Mozaex offers the broadest interoperability with virtually any control system, including touch panel controllers from companies such as Crestron<sup>®</sup>, AMX<sup>®</sup> and Control4<sup>®</sup>. The company also released at the ISE 2010 Amsterdam show a new Interface for the new Philips<sup>®</sup> Pronto<sup>™</sup> and NetStreams<sup>®</sup> touch panels.

### Warranty and Service

Mozaex products are covered by a limited three-year warranty and free product lifetime telephone support. Mozaex is also currently offering service and support on a case by case basis for the no longer manufactured Axonix MediaMax product line.
